Kairova Entry Receipt

GATE INTAKE READINESS RECORD

LEARNER

Luis Camberos

COURSE

CS-110 · Fundamentals of Computer Science

GENERATED

August 25, 2026 at 1:47 PM

STATUS

Ready for Canvas submission

RECORDED ACKNOWLEDGEMENTS

5 RESOLVED

FIELD LOADOUT

I reviewed the CS110 books, tools, channels, workspace, costs, and support routes and know that Canvas contains the final section-specific versions and links.

READY

CIVIC CHARTER

I opened and read the complete CS110 syllabus, completed its required checks, and understand that Canvas holds the official course record and later updates.

READING COMPLETION RECORDED

I opened and read the complete CS110 syllabus, including course expectations, grading, required resources, conduct, support, and final-project rules.

READY

SYSTEM ROUTES

I understand that Canvas holds official submissions, feedback, grades, and due dates; the Nexus supplies story and guidance; and I keep recoverable working files in my own workspace.

READY

AI COPILOT PROTOCOL

I understand that AI use is required where assigned, that I must inspect and test its output, document meaningful use, protect private information, and use the approved no-cost route when needed.

READY

RECOVERY ROUTE

I know how to record an access barrier, request help, and document a different approved route without claiming completion that did not occur.

READY

OPEN SUPPORT CATEGORIES

None recorded

COURSE LAUNCH CHECKLIST

KEEP WITH THIS RECEIPT

☐ Get Attention First Keep the required course reading available for class discussions and the Attention-Driven Design activities. OPEN REFERENCE ↗	☐ Check Canvas before buying or installing Use the current Canvas module for approved editions, download links, versions, due dates, and assignment points.
☐ Prepare the development tools Begin with a current browser, Visual Studio Code, Git, and the current .NET SDK. Python, Three.js, and Unity arrive later through their assigned pipelines.	☐ Join the course communication routes Use the class communication, tutorial, shared-folder, and media links listed in Canvas. Record a support need if a route is blocked.
☐ Protect your work Maintain the course folder structure and a second recoverable copy in an approved cloud drive, external drive, or other backup location.	☐ Arrive ready and on time Tuesday and Thursday in Business 217: lecture 12:45–1:35 PM, followed by laboratory 1:45–3:05 PM.
☐ Keep this receipt Submit the saved PDF to the Canvas onboarding assignment, then keep it as your course launch checklist and shareable support reference.	☐ Return to the syllabus when needed The standalone Civic Charter remains available without restarting Training Day. OPEN REFERENCE ↗

SUBMISSION AGREEMENT

By generating and submitting this receipt in Canvas, I confirm that I completed every required Training Day item. For the Civic Charter, I opened and read the complete CS110 syllabus, completed its checks, and pressed Confirm and continue. My Canvas submission is my acknowledgement of this record.

Accepted by Luis Camberos when this receipt was generated.
