

Designing Your AAA Sequence

Use this section to map AAA at both scales: the full experience and the next lesson.

Name of Experience / Module / Pipeline:

Stage 1: Application

7. What real thing will the learner touch, test, make, or play with immediately?

8. What productive friction do you want them to encounter here? What misconception should fail safely?

Stage 2: Action

9. What are the 3-5 core concepts, definitions, or moves that should arrive only after Stage 1?

10. How will the learner use those ideas to refine what they already began?

Stage 3: Amplification

11. What bigger frameworks, professional practices, or collaborative contexts will open here?

12. How does AAA work at the macro scale of the full experience and at the micro scale of one lesson or node?
