

KAIROVA / CS110 / WEEK 3 · Horror

Expedition Mission Receipt

DESTINATION / MISSION

Medical Annex Dome / Recover

GENRE

Horror

CHARACTER / ROLE

Chappie / Power systems technician

CREATION TYPE / ORIGIN

Robot / Expedition salvage yard

DEFINING FEATURE

rust exterior, robust interior

STRENGTH 1

Self-repair

PAIRED LIMITATION 1

Needs compatible spare material

STRENGTH 2

Echo mapping

PAIRED LIMITATION 2

Loud noise disrupts the return signal

AUDIENCE

Human Systems Check

PURPOSE

recover reports on identity markers and information needed to positively identify occupant

MEANING

recovering reports that help identify occupants will help the team progress and positively identify issues in the process.

DISCOVERY

initial scans show an occupant that

PROBLEM

Although Chappie can repair himself, harsh planetary conditions away from home base make him susceptible to internal and external mechanical failures

RESPONSE

Upon finding reports and identifiable markers o=for occupants requiring proper identification, his external components failed him. Failures led to fluids and harsh conditions to fall upon the reports required to identify the occupants that were on high alert needing to be identified.

OUTCOME

all reports and information found during mission were scanned into Chappies internal memory, with time winding down before planet explosion, alien lifeforms threatening the successful extraction of reports to Kairova.

PEER TEST

I tested it. i couldn't get the web page to open. i finally got it working after a few trial and error attempts

PRODUCTIVE STRUGGLE

i need to fix it so i can see the images better on my phone.

NEXT TEST

retest images on phone after tweaking parameters
